Product benefits

Sausage/vegetable steamer with tap GN 1/2

Model	SAP Code	00005200
--------------	-----------------	----------

1

All-stainless design

only stainless steel intended for food contact is used

- absolutely rust-proof and non-magnetic design
- resists even weak acids easier compliance with hygiene standards (HACCP); easy maintenance and cleaning

2

Capacity GN 1/2150

large capacity

- possibility to heat large quantities of sausages at once

3

Drain cock with safety lock

the possibility to drain the bath without the need for complex handling of the device

- easy draining of the water from the tub with the spout

4

Heaters outside the bath

heating element under the bottom of the bath

- the body is hidden under the bottom of the tub and cannot be accidentally damaged or injure the operator or burn the food

5

Warm-up indicator light

optical possibility to check the status of the device

- the operator immediately knows the on/off, heating/ non-heating state of the appliance

6

Removable / double bottom

enables the heating of sausages in steam

- there is no leaching of raw material into the water
- the raw material does not crack when cooked in water
- I don't have to heat so much water
- the food retains more of its flavour

7

Split hinged lid

the lid remains on the appliance
only the part where I manipulate is open

- less heat loss
- I don't need a space to store the lid
- safer handling
